EDUCATION

University of California, Berkeley

Berkeley, CA

Bachelor of Arts, Major in Computer Science, Minor in Data Science

May 2023

GPA: 3.8/4.0

Coursework: Principles of Data Science, Data Structures, Computer Architecture, Database Structures, Computer Security
Discrete Math / Probability Theory, Applications of Cloud Computing, NFTs & Metaverses, Decentralized Finance

WORK EXPERIENCE

eBay

San Jose, CA

Product Manager Intern

May 2022 - August 2022

- Conducted extensive product research to identify problems within eBay's current authentication sector
- Designed a self-service digital authenticator that leverages NFTs as authenticity certificates
- Led a team of 3 developers through sprint planning and daily scrums for 4 weeks to build a prototype of the product
- Presented prototype to Payments and Collectibles department leaders within eBay to pitch for potential implementation

Cisco

San Jose, CA

Software Engineer Intern

May 2021 - August 2021

- Visualized and represented critical-to-business metrics through a customer data management dashboard
- Integrated AngularJS front-end and Java back-end elements to generate end-to-end connections
- Carried out research internally to collect user experience data and enhance the UI

Pixel Vault

Remote

Product Manager Intern

June 2021 - August 2021

- Constructed a product roadmap to plan NFT releases for the next quarter
- Conducted bi-weekly brainstorming sessions to ideate new initiatives for the MintPass and PUNKS Comic projects
- Led the execution of implementing the features that were prioritized

Samsung Electronics America

Mountain View, CA

Software Engineer Intern

June 2020 - August 2020

- Developed and managed ETL workflows and custom frameworks with Apache Airflow
- Built and published a self-service data uploading portal for users through Flask, Python, and SQL

Orbis AI

Berkeley, CA

Software Engineer Intern

November 2019 - January 2020

- Worked on TTS (Text to Speech) and Voice Conversion
- Utilized NumPy, Pandas, and other Python libraries for audio segmentation

ACTIVITIES

PlexTech Consulting

Berkeley, CA

VP of Projects, Project Manager

September 2020 - Present

- Obtained corporate sponsorships for PlexHacks to create an inviting corporate experience
- Led corporate relations to ensure coordination and transparency for consulting projects
- Drove execution to develop a platform with MERN stack to create a marketplace for students and employers to connect
- Directed a team of 10 software developers to refine the client's ML matching algorithm

BERKE1337 Security Organization

Berkeley, CA

Co-President

January 2020 - Present

- Hosted coding competitions, tech talks, and fireside chats to spread knowledge of cybersecurity
- Guided the Executive Board to rebuild the competitive security team and develop industry connections

Seed Base Consulting

Berkeley, CA

Strategy Consultant

September 2019 - December 2019

- Conducted technical research to produce growth insights for Samsung Developer Universe
- Improved and gamified the user interface of the platform to enhance usability
